# THE RIGHT COMPANY.

CLR® and Tarn-X® have been the top selling brands in their category for over 30 years.

For more than 50 years, Jelmar® has built a strong reputation for innovative and powerful cleaning products. But we're not resting on our laurels. We're taking that same passion for excellence that made CLR the #1 selling calcium, lime and rust remover in the world and bringing it to the professional cleaning industry. Your success is our success!

Made in USA

WOMEN OWNED

1940s

In 1949 Manny Gutterman founded Manny Gutterman & Associates, Inc. as a national sales representative organization

A friend in advertising asked Manny to sell a warehouse full of cleaning product in barter from a bankrupt client. Of course he accepted the challenge and Jelmar, LLC. was born.

1960s

The product was reformulated and repackaged and sold as Tarn-X® Tarnish Remover.

Tarn-X became the number one selling metal cleaner in the United States through its use of the phrase "AS SEEN ON TV."

1980s

Product innovation continued and a powerful lime and rust remover was developed: CLR® Calcium, Lime & Rust Remover.

2000s

In 2007, Alison Gutterman continues the family legacy and became the president of Jelmar.

Over the years, Jelmar continued to develop new products that stand out from the competition.

2020+

CLR PRO® introduces CLR PRO MAX®, a new line of products that are more powerful and work faster.

Jelmar launches safe & effective professional cleaning products formulated for the unique needs of the industrial and commercial marketplace.

# WHY CLR PRO® AND CLR PRO MAX®

We strive to execute strict standards for product and company performance that exceeds industry standards.

## THE POWER YOU EXPECT. THE SAFETY YOU NEED.

- Proven effective and safe to use regularly.
- Keep equipment working efficiently.
- Nationally recognized brand leadership.
- 99% complete and on time fill rates.
- NSF registered—approved for use in food processing, food storage, and food service facilities.
- Non-corrosive and non-abrasive on surfaces when used as directed.
- Meets LEED Standards.
- EPA Safer Choice Certified

## THE POWER YOU EXPECT. THE SPEED YOU NEED.

- Outperforms competition in removing heavy build-up.
- Help restore equipment and surfaces to their original state.
- Nationally recognized brand leadership.
- 99% complete and on time fill rates.
- NSF registered—approved for use in food processing, food storage, and food service facilities.

Look for the logo on the label.

# SAFER CHOICE PRODUCTS FOR A HEALTHIER ENVIRONMENT

## Sustainability in Maintenance: The Advantage of Safer Choice Products

The EPA Safer Choice program is all about encouraging the use of eco-friendly cleaning products. It sets strict standards covering everything from the ingredients to the effectiveness and packaging of products. When a product earns this label, it means it's passed tough tests for environmental and human safety.

For businesses, choosing CLR PRO® products with the Safer Choice label can be a game-changer. These products not only meet high performance standards but also keep your air and water cleaner, minimizing health risks. Plus, using these products can boost your facility's green credentials, possibly earning points towards LEED certification. It's a smart way to show you're serious about sustainability.

Choosing CLR PRO® with the Safer Choice label means you're choosing products that are safe, effective, and environmentally sound. Facility managers can make their spaces cleaner and safer while supporting broader environmental goals. It's a practical step towards a more sustainable approach to maintenance.

Proud to be EPA Partner of the Year since 2015.

Nonfood Compounds

## FOOD AND BEVERAGE READY

### NSF REGISTERED

The CLR PRO® LINE of ready-to-use products provides complete cleaning solutions for food & beverage processing facilities, restaurants, commercial and test kitchens, catering facilities, manufacturing, and much more.

- Meets a high standard for hygiene and safety
- Assures consistency with USDA on guidelines for non food compounds
- Compliant with Global Food Safety Initiative Standards (BRC, IFS, SQF)

# FACILITIES MAINTENANCE PRODUCTS

CLEANING SOLUTIONS FOR ALL AREAS OF YOUR FACILITY

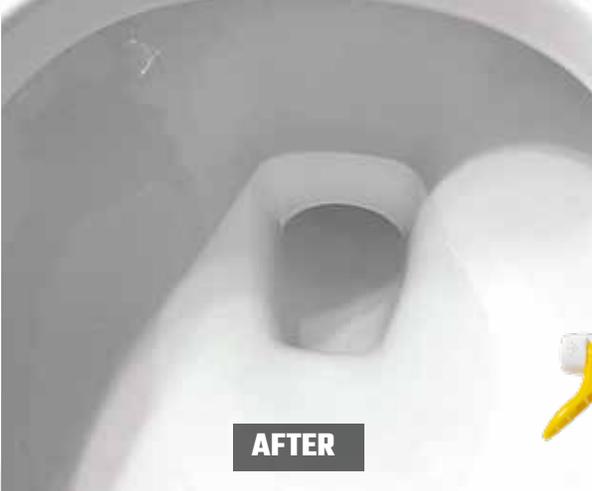

## SAFE AND EFFECTIVE CLEANING SOLUTIONS FOR FACILITIES MAINTENANCE

Facilities Maintenance covers a lot of ground and areas with distinct cleaning needs. CLR PRO® cleaning products provide time-saving solutions with easy-to-use products that work.

Ready-to-use | Proven effective | Safer ingredients | Supports sustainability goals

## FACILITIES MAINTENANCE

# CLR PRO® CALCIUM, LIME, RUST REMOVER

CLR PRO® Original Formula Calcium, Lime & Rust Remover is a safe and effective way to clean away calcium, lime and rust deposits.

- Safe on all plumbing including copper and plastic/PVC
- Made of Lactic Acid which is derived from plants
- Contains no bleach, ammonia, or phosphorus
- NSF registered—approved for use in food processing, food storage, and food service facilities
- Part of the EPA's Safer Choice Program recognizing the product as a safer alternative to traditional chemicals

### COMMON USES:

Dishwashers, Coffeepots, Sinks, Showerheads, Toilets, Humidifiers, Washing Machines, HVAC, Glassware, Faucets

### DILUTION:

*Light soils: 1 part CLR: 8 parts warm water*  
*Medium soils: 1 part CLR: 1 part warm water*  
*Heavy soils: use full strength CLR*

### USE ON THESE SURFACES:

PORCELAIN  
STAINLESS STEEL  
CHROME  
GLASS  
FIBERGLASS  
VINYL  
BRASS  
PVC/PLASTIC  
COPPER

## FACILITIES MAINTENANCE

# CLR PRO® BIO-ENZYMATIC DRAIN MAINTAINER

Live microbial formula prevents the accumulation of fat, oil, and grease in grease traps, ponds & lagoons, septic tanks, and will keep drains flowing freely.

- Live bacteria digests and degrades fat, oil, and grease with no harmful byproducts
- Contains no emulsifiers—promotes a more efficient waste water treatment operation
- NSF registered—approved for use in food processing, food storage, and food service facilities
- Part of the EPA's Safer Choice Program recognizing the product as a safer alternative to traditional chemicals

### COMMON USES:

Grease Traps, Drains, Toilets, Sinks, Tubs, Showers, Kitchens, Restaurant Drains, Spas, Locker Rooms, Factories, Sewage Treatment Plants, Lift Stations, Meat/Poultry Producers, Vehicle/ Truck Wash, Utilities, Oil Water Separators, Industrial Laundries, Wastewater Ponds & Lagoons

### DOSAGE:

- For drain line maintenance in kitchens, bath and laundry rooms – 2 ounces per inch of drain diameter is the targeted measurement.
- For a 2" drain: Add 8 ounces per drain as a start up seeding dose. Then add 4 ounces per week thereafter for maintenance. Increase doses accordingly for larger diameter drains and feeder lines.

For wastewater treatment applications including lagoons, grease traps and food processing plants, please refer to Technical Data Sheets for more directions for use.

### USE ON THESE TYPES OF PIPES:

# AUTOMOTIVE PRODUCTS

MAKE EASY WORK OF DAILY SERVICE REPAIRS AND CLEANING

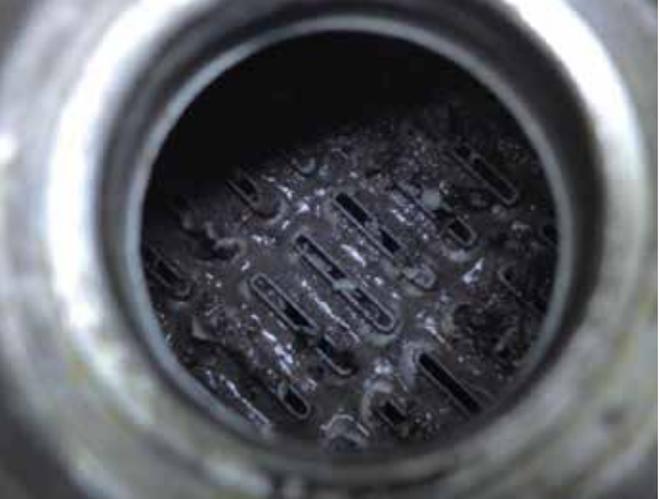

## SAFE AND EFFECTIVE MAINTENANCE PRODUCTS FOR THE AUTOMOTIVE INDUSTRY

The CLR PRO® Automotive line of products offer a safer, effective solution to make easy work of daily service repairs and cleaning than the harmful, hazardous chemicals commonly found in auto shops.

Ready-to-use | Outperforms competition\* | No harsh ingredients

\*Proven in third-party tests.

**AUTOMOTIVE**

# CLR PRO® HEAVY DUTY RADIATOR FLUSH & CLEANER

Formulated to remove heavy scale buildup and rust in later model radiators. It removes more scale in 10 minutes than competitive products do in 3 hours\*.

- Heavy duty to extend the life of vehicles
- Removes scale build up 10x more effectively than the leading product\*
- Safe for employees

*\*Proven in third-party tests. Based on 30 minute flush with average 3 gallon radiator.*

## USE ON THESE SURFACES:

- ALUMINUM
- STAINLESS STEEL
- COPPER
- BRASS
- PVC/PLASTIC
- VINYL
- FIBERGLASS
- RUBBER PARTS

# INDUSTRIAL PRODUCTS

EFFECTIVE AND SAFE TO USE REGULARLY

## KEEP EQUIPMENT WORKING EFFICIENTLY

Not regularly maintaining industrial equipment and vehicles can cause increased wear and operating hazards to operators. Harsh chemicals are often required when regular maintenance does not occur, which can damage equipment surfaces and can increase the risk of exposure for operators.

Ready-to-use | Proven effective | Reduce equipment downtime | No harsh ingredients

## INDUSTRIAL

# CLR PRO® INDUSTRIAL SYSTEMS FLUSH

**Safely removes scale buildup from industrial systems that can compromise the ability to heat and cool correctly.**

- Helps prevent equipment from overheating or failure, and energy inefficiencies with regular use
- Safely dissolves calcium, lime, rust and other deposits from water passages in water cooled or heated equipment
- Contains no harsh chemicals, like ammonia, phosphates, or solvents
- Manufactured in the USA

### COMMON USES:

Heat Exchangers, Cooling Towers, Evaporative Condensers, Boilers, Steam Generators, Injection Molds, UV Sterilizing, and Pipes and more.

### DILUTION:

*Ready to Use*

The recommended dilution is a 50% ratio of CLR PRO® ISF to water. Depending on the amount of scale present, a stronger solution can be used, OR the flush time increased and/or repeated.

*See label for directions*

### USE ON THESE TYPES OF PIPES:

INDUSTRIAL

## CLR PRO® VEHICLE LIME REMOVER

A daily use cleaner to remove scale buildup from industrial and commercial vehicles and equipment.

- Cleans harmful scale buildup that can shorten service life of equipment and vehicle surfaces
- Keeps vehicle windows clear with regular use
- Can also be used to clean buildings, walls, floors, and hard surfaces that lime powder and scale accumulates
- Works great in pulp mills, lime mines, construction sites, concrete plants, farm equipment, and chemical plants
- No VOC's
- Manufactured in the USA

### USE ON THESE SURFACES:

- PAINT
- RUBBER
- WINDOWS/GLASS
- VINYL
- ALUMINUM
- CHROME
- STAINLESS STEEL
- PVC/PLASTIC

**CLR PRO MAX**

# INDUSTRIAL PRODUCTS

**THE POWER YOU EXPECT. THE SPEED YOU NEED.**

## MORE POWER FOR TOUGH JOBS

CLR PRO MAX® products excel in power and efficacy to restore your equipment and surfaces to their original state. Formulated specifically to outperform the competition, CLR PRO MAX® will be your new go-to.

**Concentrated | Proven Effective | Dilutable**

INDUSTRIAL

# CLR PRO MAX® DESCALER

Quickly dissolves scale, rust, and more in industrial equipment and drains.

- Helps quickly restore equipment to peak condition.
- Dissolves & eliminates buildup like calcium, lime, rust, struvite, magnesium, and more in industrial equipment and drains.
- Helps to increase operational efficiency & prolong lifespan of machinery.
- Non-flammable, odor-free formula helps ensure a safer working environment.

## COMMON USES:

Use for heavy buildup in: Heat Exchangers, Evaporators, Cooling Towers, Boilers, Ball Mill Rollers, Pipes built with Struvite, any place where scale build up occurs.

See label for directions.

## RECOMMENDED DILUTIONS:

### Some visible scale:

1 Part CLR PRO MAX®: 5 Parts Water

### Medium levels of scale:

1 Part CLR PRO MAX®: 3 Parts Water

### Heavy scale build up:

1 Part CLR PRO MAX®: 1 Part Water
